In the years that followed after Jay and then later Marie were born, she had tried to stay abreast of her career by attending lectures and classes in Princeton and by setting herself a reading program, but as time went by, her attendance became less frequent and the reading was continually put off to tomorrows that she knew would never come. She found that she read articles on home-building instead of on the mechanism of DNA transcription, identified more readily with images projected by light domestic comedies from the databank than by tutorials on cell differentiation, and spent more time with the friends who swapped recipes than the ones who debated inheritance statistics. But she had raised two children that her standards told her she had every right to be proud of. She was entitled to rewards for the sacrifices she had made. And now Chiron was threatening to steal the rewards away..them. Are we, Micky?".What distinguished the generations was that every member of each had a corresponding partner in all the others which was identical in every property except mass; the muon, for example, was an electron, only two hundred times heavier. In fact the members of every generation were, it had been realized, just the same first-generation, "ground-state" entities raised to successively higher states of excitation. In principle there was no limit to the number of higher generations that could be produced by supplying enough excitation energy, and experiments had tended to confirm this prediction. Nevertheless, all the exotic variations created could be accounted for by the same eight ground-state quarks and leptons, plus their respective antiparticles, together with the field quanta through which they interacted. So, after a lot of work that had occupied scientists the world over for almost a century, a great simplification had been achieved. But were quarks and leptons the end of the story?".iTener cuidado, muchacho!".responded, never appeared to comprehend a sentence of his monologue. They.Hanlon detached himself from a group and sauntered over to Colman, Celia, and Lechat. Things had been so hectic that an opportunity for a few quick words with them had not presented itself since Colman's return. "Well, I see there's no need to ask how things went on your side, Steve. I take it

that Veronica's in safe hands now." As a postgraduate biology student at the University of Michigan, her home state, she had once had ambitions to specialize in biochemistry and the genetics of primitive life-forms. She had hoped that such studies would bring her closer to comprehending how inanimate matter had organized itself to a complexity capable of manifesting life, and she rationalized it outwardly by telling herself that her knowledge would contribute to feeding the exploding population of the new America. And then she had met Bernard, whose youthful zeal and visions of the performance, she could move with a degree of gracefulness and even with surprising speed for short. For now, they travel without a destination, vagabonds but not carefree. "Oh, I figured you'd be around here somewhere." "Is this the guy who makes trains?" Anita asked. "Yeah. This is Jay. He's okay... and smart." To preserve the essential characteristics of the American System, life aboard the Mayflower I1 was organized under a civilian administration to which both the regular military command and the military-style crew organization were subordinated. The primary legislative body of this administration was the Supreme Directorate presided over by a Mission Director, who was elected to office every three years and responsible for nominating the Directorate's ten members. The term of office of the current Mission Director, Garfield Wellesley, would end with the completion of the voyage, when elections would be held to appoint officers of a restructured government more suitable for a planetary environment. "grand..something when you tell these tall tales about Dr. Doom murdering boys in wheelchairs." This time, Micky resisted being charmed. "That's not funny, Leilani." "Yeah, but it never quite makes up for always being the bearer of bad news." He stepped back from the. were preserved through centuries by being told and retold in the glow of campfire and hearth light. "Do you?" taken from the open cooler behind him. For a second Colman could only gape at her, He'd known that Swyley had been brought on to the Mayflower. Suspecting that Rickster might be a little afraid of the night, Noah said, "Do you want me to take her. The Chironians traded in respect, Colman was beginning to understand as he listened to the talk around him. They respected knowledge and expertise in every form, and they showed it. Perhaps, he thought to himself, that was how the first generation had sought to compete and to attain identity in their machine-managed environment, where such things as parental status, social standing, wealth, and heritage had had no meaning. And they had preserved that ever since in the way their culture had evolved. "Come over for a second. I want to ask him something." Sirocco led Colman, and Hanlon followed. The conversation stopped as they approached, and heads turned toward them curiously. "Do you just do tricks with cards," Sirocco asked Driscoll without any preliminaries, "or are you into other things too?" Curtis had thought he was being pursued by a platoon. Perhaps it is instead an army. And the enemies of a heart-stopping dose of his own poison. He would return home sooner or later, smelling of one kind of. "Howard Kalens, no doubt about it," Bernard Fallows was saying. "If we've only got two years to knock the place .. into shape, he's just the kind of man we need. He knows what he stands for and says so without trying to pander to publicity-poll whims. And he's got the breeding for the position. You can't make a planetary governor out of any rabble, you know." probable or fair, and as good as she looked in daylight, she was even prettier here. Although her bare. "I have. I got cut off with some guys for almost a week in the South African desert once. All you think about is water. You can't describe the craving. You'd cut off your arm for a cup." He paused, and Jay waited with a puzzled expression on his face. "When you've got ~enough to drink," Colman went on, "then you start worrying about food. That takes longer to build up, but it gets as bad. There have been lots of instances of people cannibalizing dead bodies to stay alive once they got hungry enough. They've killed each other over potato peels." With repeated blasts of its air horn to clear the way, a semi roars down the exit ramp from the interstate, preferred to be called Rickster, the affectionate nickname that his dad had given him. "You too," Colman said. He and Driscoll left for the forward section of the Spindle to join Swyley, who, if all was going well, would already be organizing the men drifting in from various parts of the ship to block off the. is a possible fate that he envisions for himself too clearly to embrace fully the traditional boys'-book spirit. "Aha!" The preacher made an appealing gesture to the audience. "Is there any difference, my friends? Can we see atoms? Is this not arrogant insolence?" He looked back at the boy and jabbed an accusing finger at him. "Do you claim to have seen atoms? Tell us that you have, and I will say that you lie!" Another appealing flourish. "And is this therefore not faith any the less, and yet this person proclaimed to have no need of faith. Does he not, therefore, contradict himself before us?" too? will sooner or later learn his whereabouts. Eventually they will get to him no matter in what deep. wasn't road kill, but apparently the artist in Sinsemilla had been inspired by the grisly grace of the. her contact with anybody made no sense. Veronica said that Celia hadn't volunteered any more information and that she hadn't pressed Celia for any, which Colman believed because that was the kind of relationship he knew they had- much like that between himself and Sirocco. But now that the immediate panic was over and everybody had had a breather, he was curious. STRANGELY, here in the sunshine, less than a day later, Micky couldn't stop thinking about the. Celia raised her head suddenly to look up at Lechat. "But I only shot him twice, not six times as the soldiers found. And the house hadn't been broken into when I left. Don't you see what that means?" Door won't open. Handle won't move. He presses, presses harder. No good. Locked, it must be. Micky returned the question, the girl's simple reply had been, I better. "Deleted," the machine confirmed. "Last line of entry reads: "... shut up behind a fence, ignored, and looking ridiculous." to this place while he's still inside, they won't spare anyone. They have no mercy, and they dare not leave. when the battering stopped, had squirmed inside the pole. By this pipeline, it traveled unseen from. Disconcerted to hear such a thing from a child, Micky covered her discomfort with self-deprecation. "I've heard about you." It could only have been from the Chironians he had talked with earlier. Why would they mention his name to her? Who was she? She came nearer and smiled. "My name is Kath. I have some connection with the technical aspects of what goes on here. From what I've heard, I'd imagine you'd find this an interesting place. Perhaps when you've some free time, you'd like to meet some of the people here. If you like, I could mention it to them." toilets strikes him as hilarious, and the combined flow demand causes plumbing to rattle in the walls. Curtis hopes that he won't have to kick anyone in the sex organs, but he's prepared to do whatever is. "Now, what would a handsome sergeant like you be up to in the Baltimore module? net seems to have gone down," he said. "Even the standby channels." Bernard frowned suddenly. "Yes, it is. And I didn't know about it." His concern intensified as the implications sank in. "Who are they?" one would come here in search of love or chivalrous adventure. "Anyone I know?" "Mmmm. So you don't really know anything about his experience or aptitude. He was just someone you met casually who read too much into something you- said.
