Understand what he's done to offend and can't imagine how to get himself admitted to her good graces. After studying his impassive expression for a few seconds, Veronica had said in a low voice, "It is you, isn't it?" The closet door rattles. Probably just road vibration. The dog follows at his heels. "Think of it like the phase-changes that describe transitions between solids, liquids, and gases," Pernak said. "The gas laws are only valid over a certain limited range. If you try to extrapolate them too far, you get crazy results, such as the volume reducing to zero or something like that. In reality it doesn't happen because the gas turns into a liquid before you get there, and a qualitatively different kind of behavior sets in with its own, new rules." For the first time a hint of anger flashed across Sterm's face. I would advise you not to use this as an opportunity for demonstrating your cleverness," he warned. He allowed himself a moment to calm down. Then he resumed speaking more slowly. "Earth is tearing itself apart because it has failed to produce the strong leader who would crush"- Sterm raised a hand and dosed his fist in front of his face-"the petty rivalries and jealousies which throughout history have frustrated, any chance of expression of the full potential grandeur of collective unity and power. Earth has always been in turmoil because it has inherited a legacy of chaos of global proportions against which the efforts of even its most capable organizers have been to no avail. Is that the future that you would wish upon Chiron?" "Oh, lots of things. She snatched up her bag and straightened up from her seat in a single movement; the escorts merely raised their heads for a second or two as she hurried to the rear, holding her coat away from her body and brushing off the liquid with her hand. The matron did not rise from her seat just across the aisle; there was nothing aft but a few more seats, the restroom, and lockers used by the crew. The flight-attendant with short red hair who walked by with a blanket under her arm and disappeared into the forward cabin less than ten seconds later blended so naturally into the background that none of the escorts really even noticed her. "What else can you do?" Juanita asked. "See, there's that anger again." A crop of fiery red hair snares Curtis by the shirt, nearly causing him to skid off his feet. "Hey, hey, hey! Lechat agreed that the Chironian culture, far from being a naive and backward experiment that would be absorbed without difficulty into the Terran system, as had been assumed, was highly developed in its own unorthodox way and would not yield readily to changes. The two populations could not simply be left to collide with each other in the hope that an equilibrium would establish itself. Something, somewhere, would blow up before that happened. Part in a nice way." The underside of the vehicles on the upper platform of this double-deck automobile carrier. "Not really." Groping blindly, he discovers that the truck is loaded in part with a great many blankets, some rolled and. Jay shook his head. "It'd just mean we've got the same problem. It wouldn't solve anything." "When we return, it will be a different story," Sterm told his entourage on the Bridge as the module's main drives fired and they felt it surge forward and away from the Mayflower II's nose. "But first, we have, to deal with our Chironian . . . friends. What is the report on the Kuan-yin?" "You haven't gone to the police," Micky said. "How far have they penetrated?" Colman asked. Colman went through the motions of having to think back. "Yes . . . I think so. But I don't remember Swley being around." Before I was born. I haven't met any of them, don't know where they are. In a hastily convened meeting of the Congress, Howard Kalens again denounced Wellesley's policy of "scandalous appeasement to what we at last see exposed as terrorist anarchy and gangsterism" and demanded that a state of emergency be declared. In a stormy debate Wellesley stood firm by his insistence that alarming though the events were, they did not constitute a general threat comparable to the in-flight hazards that the emergency proviso had been intended to cover; they did not warrant resorting to such an extreme, But Wellesley had to do something to satisfy the clamor from all sides for measures to protect the Terrans down on the surface. "I would prefer not to use that term," the major answered. "The legal
