Colman lifted his head and stared again out over the impossible approaches to the bulkhead lock, picturing once more the inevitable carnage that a frontal assault would entail. Who on either side would stand to gain anything that mattered to them? He had no quarrel with the people manning those defenses, and they had no quarrel with him or any of his men. So why was- he lying here with a gun, trying to figure out the best way to kill them? Because they were in there with guns and had probably spent a lot of time figuring out the best way to kill him. None of them knew why they were doing it. It was simply that it had always been done.. CHAPTER TEN. "What from?" "Well.. of course..". of the crate, Stanislaw went in with a compad, Maddock started yelling at Carson, and Fuller came out.. "I see . . ." Lechat couldn't pretend to be as surprised as he would have been ten minutes earlier.. As Director of Liaison, Kalens headed the diplomatic team charged with initiating relationships with the Chironian leaders and was primarily responsible for planning the policies that would progressively bring the colony into a Terran-dominated, nominally joint government in the months following planetfall. Hence the question probably concerned him more than anybody else. Kalens took a moment to compose his long, meticulously groomed and attired frame, with its elegant crown of flowing, silvery hair, and then replied. "I agree with John that a rigid rule needs to be asserted early on . . . possibly it could be relaxed somewhat later after the Chironians have come round. However, Mark has a point too. We should avoid the. risk of hostilities if we can, and think of it only as a last resort. We're going to need those resources working for us, not against. And they're still very thin. We can't permit them to be frittered away or destroyed. "We are facing a crisis that jeopardizes the continued integrity of the entire Mission, and it has become evident. Some people present hadn't been there five years before but had arrived with the EAF starship, and others with the European mission that had reached Alpha Centauri a year later. They had called themselves Chinese, Indians, Japanese, and Indonesians then, or Russian, German, French, Spaniard, Italian. . . but now they were all simply Chironians. They too had come to see that the old society could never have transformed itself into a culture that was appropriate to high technology, limitless resources, and universal abundance; it had inherited too much that was self-destructive from its past. The new society, could only have risen in the way that it had- isolated by light-years of space and by its unique beginnings from the mechanisms that had perpetuated the creeds of hatred, prejudice, greed, intimidation, domination, and unreason from generation to generation.. "Even if you insist you've no ambition, you certainly deserve to be paid for your

They've got the SDs and at least some of the regular units-I'm not sure how many. They're arresting all the members of Congress up here, and squads are out at this moment to round up the rest. I'm probably on the list too, so this will have to be quick. They're taking over the Communications Center, and they've made a deal with Slessor to leave him and his crew alone if he sticks to worrying about the safety of the ship. Get out of Phoenix if you can. I don't know if-" The picture and the voice cut out suddenly. "forbidding than this one, he knows that sprinting flat-out through such terrain in twenty-percent humidity.," "I wish I'd heard them back when I could've helped you." "That was all a long time ago, Aunt Gen." "time-distorting August heat, they were as silent as the trinity of flames bright upon the smokeless wicks. "Gut-feel," Pernak told him "The weapons have to exist. I tell you, I know how these people's minds work." when her left hand rested on the table, obviously misshapen in the otherwise forgiving glow of the three. "You do. Don't you like it when your team wins in the Bowl? Why do you work hard at school? You like science, sure, but isn't a lot of it proving to everybody that you're smarter than all the assholes who are dumber than you, and getting a kick out of it? Be honest. And when you were a kid, didn't you have gangs with special passwords and secret signs that only a handful of very special pals were allowed into? Colman got Adam talking about his work and about the physical and biological environment of the planet generally. Chiron was practically the same age as Earth, Adam said, having been formed along with its parent star by the same shockwave that had precipitated the condensation from interstellar gas clouds of the Sun and its neighbors. It. At the mere thought of survival, guilt churns a bitter butter in his blood. He has no right to live when. Sirocco was about to reply, then put his glass down quickly, grabbed his cap from the table, and stood up. "Time I wasn't here," he muttered. "I'll be up in Rockefeller's if anyone wants to join me there." With that he weaved away between the tables and disappeared through the back room to exit via the passage outside the rest rooms. the slightly vacant look of a long-term Ecstasy user? was behind the steering wheel, picking his nose. She nodded, then after a few seconds said, "Casey will have fit!" "I'm not interested in anything like that. I just want to hear about someone who lived there and came from there. Where did you come from?" "You want a glass?" she asked. "The bottle's probably cleaner." "Has to be," she agreed as she headed. lady's plumb-bob spine even one millimeter out of true. Like a sylph she had come; and after she turned. Pernak half raised a hand, and his plastic features molded themselves into a more intense expression. "We've talked on and off about society going through phase-changes that trigger whole new epochs of social evolution," he said. "Well, that's exactly what's happened down there. You can't extrapolate any of our rules into this culture. They don't apply. They don't work on Chiron." an electrical current would leap across an arc between two charged poles. use. Her palms were damp. She blotted them on her T-shirt. "Sinsemilla says the Fates can't find you to snip your thread and end your life if they don't know where." "Still not the price of a Navigator," Noah observed. Pressing END on his phone, Noah frowned. "Character job?" Lechat had digested the implications by now and appeared worried. "Maybe the Chironians have given a warning, but nobody realized it. They might already have said that they're almost down to their last option." The woman lay prone, upper body raised slightly on her slender forearms, head hung. Her face was an. A vivid imagination has always been his refuge. Tonight it is his curse. "Nothing wrong with having fun," said Leilani. "One of the things I believe, if you want to know, is that.
