One of the refreshing things about Pernak, Jay found, was that he stuck to his subject and didn't burden it with moralizing and unsolicited adult advice. He had never been able to make up his mind whether Pernak was secretly a skeptic about things like that or just believed in minding his own business, but he had never found a way of leading up to the question..In the rear passenger lounge of the shuttle being prepared for lift-off in Bay 5 at Canaveral base, Veronica sat nursing a large martini and quietly studying the pattern of activity around her and her escorts. "Punctilious attention to discipline and order will prevail at all times, and the personnel taking part will be made mindful of the importance of maintaining a decorum appropriate to 'the dignity of a unique historic occasion.' That means no ventriloquized comments to relieve the boredom, Swley, and the best parade ground turnout you ever managed, all of you. 'Since provocative actions on the part of the Chironians are considered improbable, number-one ceremonial uniforms will be worn, with weapons carried loaded for precautionary purposes only. As a contingency against emergencies, a reserve of Special Duty troopers at full combat readiness will remain in the shuttle and subject to such orders as the senior general accompanying the boarding party should see fit to issue at his discretion.'"..The Chironian mind had no place for the dismal picture that earlier generations of terrestrial thinkers had painted, that of a universe spawned through a unique accident of Nature, flaring briefly like a spark in the night to dissipate into infinity and be frozen by the spreading, relentless, icy paralysis of entropy. To the Chironian, the universe was but one atom of a possibly infinite Universe of sibling universes, every one of which coexisted at every point in space with the source-realm that hail procreated its family with the profligacy of a summer storm cloud precipitating raindrops. Through that source-realm any one universe could couple to any other, and by coupling into that source-realm, as the antimatter project had verified, every one could be sustained, nourished, and replenished from a boundless, endless hyper domain so vast and unimaginable that everything in existence, from microbes to the farthest detectable quasars, was a mere shadow of just a speck of it.. Now that Swley had moved from the bar, her party manner had given way to something more intimate. Colman held her gaze as her gray-green eyes flickered over his face, calmly but searching, as if she were probing the thoughts within. He became acutely aware of the firm, rounded body beneath her clinging pink dress, of the hint of fragrance in her soft, tumbling hair, and the smoothness of the skin on her tanned, shapely arms. Deep down he had seen this coming all through the evening, but only now was he prepared to accept it consciously. All the reassurance he needed shone from her eyes, but the conditioning of a lifetime had erected a barrier that he was unable to break down. For a few seconds that seemed to last forever he felt as if he was in

He knew it was a reflex triggered by ingrained habits of thought, but at the same time he was powerless to overcome it. "Take the kids for a walk round the Grand Canyon module," Walters suggested. "Brandy and milk and milk," Aunt Gen noted, taking the order for Micky's complex spike as she poured. "What happens if you win the right way?" Kath asked him. Jay glanced at Colman, then looked at Bernard. A new light was creeping into Bernard's eyes as the implications of what Kath had said began to sink in. Jay hesitated, then decided that his father was in the fight mood. "You know, this is a bit of a risky place, Dad," he said in an ominous voice. "People getting shot all over the place and stuff like that. I could run into all kinds of trouble on my own. Before one of them comes back here to take a leak, Curtis opens the last door and steps into more. Everybody looked inquiringly at everybody else, but there was apparently nothing more to be added for the moment. At last Colman rose to his feet. "Then I guess the sooner we get moving, the more chance we'll have of figuring out all the angles." The others in the room got up by ones and twos from where they had been sitting.
