Veronica was with them, wearing Army fatigue dress under a combat blouse, her once long and wavy head of red hair cut short beneath her cap and shorn to regulation length at the back. Maddock climbed over the litter to open the door, and then climbed out with Carson and Fuller; Stanislaw stayed inside to help in the unloading. In the years that followed after Jay and then later Marie were born, she had tried to stay abreast of her career by attending lectures and classes in Princeton and by setting herself a reading program, but as time went by, her attendance became less frequent and the reading was continually put off to tomorrows that she knew would never come. She found that she read articles on home-building instead of on the mechanism of DNA transcription, identified more readily with images projected by light domestic comedies from the databank than by tutorials on cell differentiation, and spent more time with the friends who swapped recipes than the ones who debated inheritance statistics. Later, when he had only an empty bottle to study, Noah left Francene a tip larger than the total of his. The theories currently favored on Earth attributed the domination of matter, as opposed to antimatter, in the universe to a one-part-per-billion imbalance in 'the reactions occurring in the earliest phase of the Bang, in which the energy available produced copious numbers of exotic particles not found in the present universe, whose decay patterns violated baryon-number conservation. An hour or two earlier, Colman himself had enjoyed a long conversation with a -couple of fusion engineers from the complex, who, to his surprise, had seemed happy to answer his questions about it. They had even offered him a quick tour. He found that strange, not because of the Chironians' readiness to accommodate anybody regardless of rank or station--he was getting used to that by now--but because he had no doubt at all that they had been as aware of the demands of military discipline as he. Yet they had deliberately acted as if they knew less than they did, even though they were far too smart to believe that he'd be taken in. The Chironians did it all the time. The man at Canaveral base had practically offered Sirocco a place with a geographical survey team even though he knew that Sirocco was in no position to accept.
