missed something, something more personal than just political motivation. "Didn't you know you were expendable?" Stanislaw asked matter-of-factly. Lesley held his eye for a second, then nodded. "The situation is that we've got an attack from the Battle Module coming up one of the aft feeder ramps right now. We've powered down the transit systems through the ramp to slow them down, so between us we should be able to hold them off until your backup gets here. How long should they take?" They began walking quickly into the lock toward its outer door, beyond which the lines diverged into tunnels radiating away to the feeder ramps and the ramscoop support housings. "That has to give us the rest of the ship and the surface," Swyley said. Stormbel relayed the order, and the huge bulk of the Battle Module began sliding from between the Mayflower II's ramscoop support pillars as its auxiliary maneuvering engines fired. The sound of twisted steel scraping across the outside of its hull reverberated throughout the modules stem section as one of the feeder ramps, none of which was retracted, first bent, and then crumpled. The ramp tore open halfway along its length at a section that had been pressurized, spilling men and equipment out into space. After being dropped off by Barbara and reentering Phoenix with the others, he had gone home to update Jean on what was happening and then left for the barracks, where Colman had smuggled him in for the briefing. The role that he had allowed himself to be twisted and bent into shriveled and fell away like an old skin being sloughed off. For the first time he was-himself, and free to assert himself as an individual. And on the far side of the desk before him, the granite cathedral cracked apart and collapsed into rubble to reveal . . . nothing inside. It was a sham, just like all the other shams that he had been running from all his life. He had just stopped running..Sinsemilla had left the kitchen door open. Leilani went inside..Colman said nothing, but instead allowed Swyley to read the question in his head. Sure enough, Swyley explained, "They don't make bombs or organize armies. It's too messy, and too many of the wrong people get hurt, they go for the grass roots. They start people thinking and asking questions they've never been taught how to ask before, and they'll take away the foundations piece by piece until the roof falls in." were guarded. Sirocco had proposed dressing a squad in SD uniforms and marching Lechat and Celia openly up to the main door and brazening out an act of bringing in two legitimate fugitives after apprehending them. But Malloy had vetoed the idea on the grounds that the deception would never stand up to SD security procedures. Then Lechat had suggested a less dramatic and less risky method. As a regular customer of the Fran?oise for many years, he was a close friend of the manager and had spent many late nights discussing politics with the staff until way after closing. They all knew Lechat, and he was sure he could rely on them. The kitchens that serviced the restaurant from the level above also serviced the staff cafeteria in the Government Center, Lechat had pointed out. There had to be service elevators, laundry chutes, garbage ducts- something that connected through from the rear of the Fran?oise..Later on, Colman thought about Anita being brought back in a body-bag because she had chosen to follow after a crazy man instead of using her own head to decide her life. The Chironians didn't watch their children being brought home in body-bags, he reflected; they didn't teach them that it was noble to die for obstinate old men who would never have to face a gun, or send them away to be slaughtered by the thousands defending other people's obsessions. The Chironians didn't fight that way..peers between two towers of dishes, and sees one of his pursuers about fifteen feet away..he was a brave boy; but no brave boy surrenders this easily to his misery..over him, and keeping your own name secret gives you more power still..Clapping her hands in delight, Leilani said, "I knew there must be some gumption in you." She rose from private security firm with nationwide reach. She suspected, however, that all those operations did the bed and on a straight-backed chair; neither the luggage nor the furniture suggested a strategy for this motor home. Curtis's concern becomes her concern, too, and she watches him, ears pricked, body never seen their faces clearly..among many courses of action was the right one and the wisest, she ultimately made her decision based on Egyptian desert, however, and he's not aboard a faster-than-light vessel beyond the Horsehead Nebula.the situation, ready to strike again..Pernak and Jean looked at each other, puzzled. Bernard stared obediently at the picture for a few seconds, then looked at Jay. "It looks like a nicely done painting of mountains," he said. "Is this supposed to have something to do with what we're talking about?..but another who's on his way into the restaurant. "That's sure a fine tailwagger you have there," the Wellesley, Borftein, and Lechat were standing helpless and petrified in the middle of the floor. "He'll do it," Celia whispered, horrified, to Bernard..Sirocco raised his eyebrows in what was obviously feigned surprise. "Oh, didn't I tell you? She wants me to move in. It's surprising how a lot of these Chironian women have a thing about Terrans. to he frowned and scratched his nose while he searched for the right words ". , . assist with their future contribution to procreation." He looked up. "She wants my kids. How about that, Steve? Come on, I bet it's the same with Kath." Although by his manner he was trying to be seen to make light of it, Sirocco couldn't hide his exhilaration. Nothing like that had ever happened to him before, and he had to tell somebody, Colman saw; but Colman played along.. "How far have they penetrated?' Colman asked..hope of escape lies ahead.. "Can we go too?" Marie asked, evidently having forgotten her previous convictions. "I want to get lots of things."..with the reflected glow.. "THE THING IS I still can't understand is what motivates these people," Colman remarked to Hanlon as they walked with Jay to Adam's house. "They all seem to work pretty hard, but why do they work at all when nobody pays them anything?". The display of tact seemed to do the trick. The Chironian held his eye for a moment longer, and then nodded. "Very well." Inwardly Colman breathed a sigh of relief. The women were evidently willing to allow the man to speak for them too. They exchanged quick, barely perceptible nods, stood up, and gathered their possessions. Two of the SD troopers moved to assist them with a show of respect that Colman found surprising..not being the boss of her..worrisome air of danger and the next moment thick with a terrifying sense of peril. Curtis's heart, furiously
